

Product Update

Version 1.2.0 Release

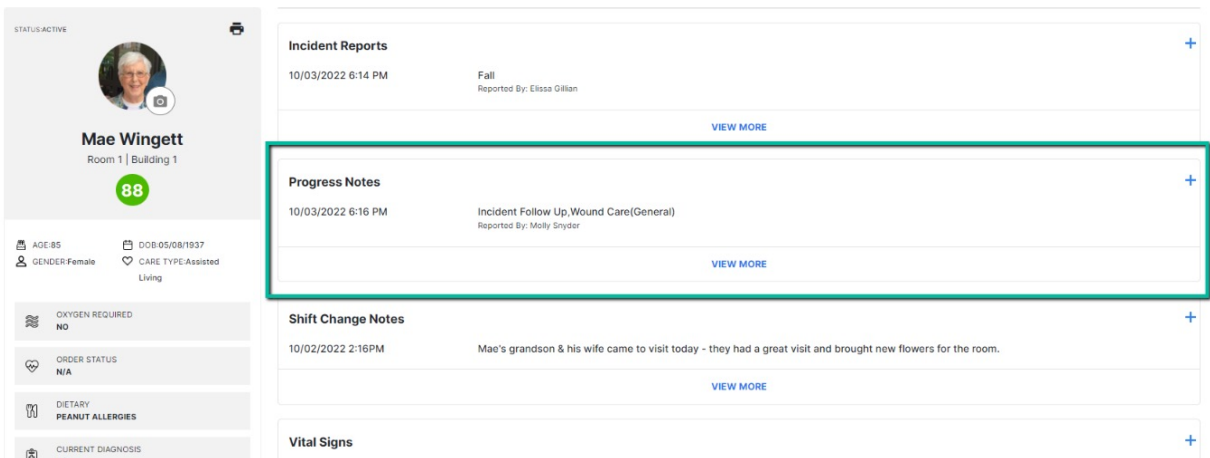

What's cooler than a polar bear's toenails? Fynn's latest updates!

What's New?

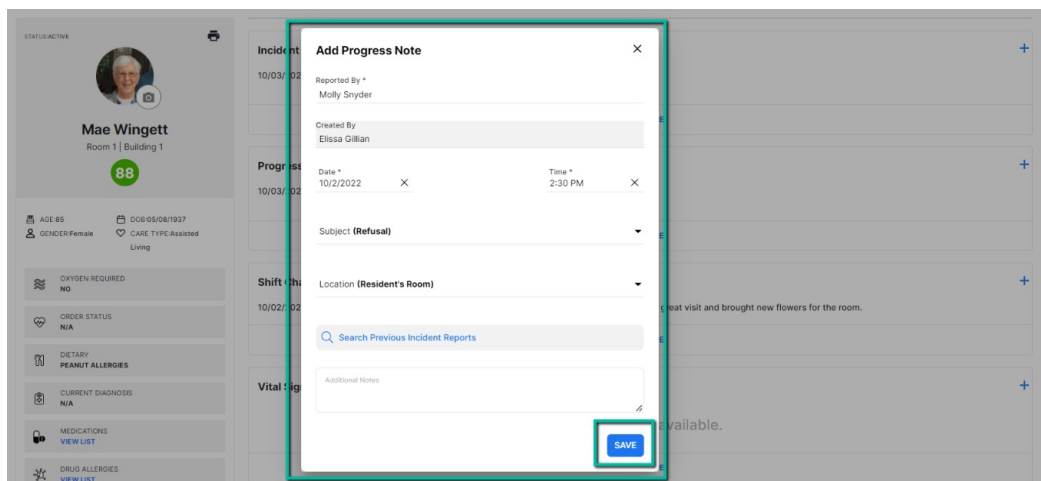

Resident Progress Notes

A Progress Notes module has been added to track resident changes. Progress Notes can be created stand-alone or they can be linked to an existing incident report.

The Progress Notes module follows the same user experience as Shift Change Notes and Incident Reports. Progress Notes are visible on the resident page and can be exported and printed, as needed.

Completed Progress Note View

Selecting the + button adds a Progress Note. Select **Save** when finished.

Product Update

What is a Progress Note and When Should a Progress Note be Added?

Progress Notes are part of a resident's Electronic Health Record (EHR), recording details of health status or progress over the course of care conditions. Progress Notes should follow documentation of an incident, new or changed medications, a change of condition, behavioral monitoring and/or the details of communication with residents, family, and healthcare providers. Progress Notes include a variety of types of "notes" entered over time.

Reporting and Dashboards

Client Admins, Wellness Directors, and Executive Directors have the ability to track and summarize ADL reporting. Navigate to **Reporting** in the bottom of the navigation menu and adjust dates and filters as needed.

The screenshot displays the ADL Reporting dashboard. At the top, there are date selection fields for 'Start Date*' (04/10/2022) and 'End Date*' (04/10/2022), an 'UPDATE' button, and a 'FILTERS' dropdown menu. Below these are three summary cards: '50 NOT YET COMPLETED', '51 ADLS COMPLETED', and '251 MISSED ADLS'. A table below shows individual ADL reports with columns for ADL SCHEDULED DATE/TIME, ADL NAME, RESIDENT NAME, LEVEL OF ASSISTANCE, STATUS, EXCEPTION, STAFF SIGNATURE, and DATE/TIME COMPLETED. A filter sidebar on the right shows options for STATUS (Scheduled, Completed, Incomplete, Late), EXCEPTION (Refused, ADL on Hold, Resident Not in Room, Other), and LEVEL OF ASSISTANCE (Independent, Minimal Assistance, Moderate Assistance, Total Assistance).

ADL SCHEDULED DATE/TIME	ADL NAME	RESIDENT NAME	LEVEL OF ASSISTANCE	STATUS	EXCEPTION	STAFF SIGNATURE	DATE/TIME COMPLETED
05/17/2021 3:00PM	Eating	Ann Jones	Independent	Scheduled	No	Sally Burns	05/17/2021 3:21PM
05/17/2021 3:00PM	Eating	Ann Jones	Independent	Completed	NO	N/A	N/A
05/17/2021 3:00PM	Eating	Ann Jones	Independent	Late	ADL on Hold	Sally Burns	05/17/2021 3:21PM
05/17/2021 3:00PM	Eating	Jeff Smith	Independent	Completed	No	N/A	05/17/2021 3:21PM
05/17/2021 3:00PM	Vital Signs	Jeff Smith	Independent	Incomplete	Other	Sally Burns	05/17/2021 3:21PM
05/17/2021 3:00PM	Grooming	Jeff Smith	Independent	Incomplete	Refused ADL	Sally Burns	05/17/2021 3:21PM
05/17/2021 3:00PM	Toileting	Jeff Smith	Independent	Completed	No	Sally Burns	05/17/2021 3:21PM

ADL Reporting

Product Update

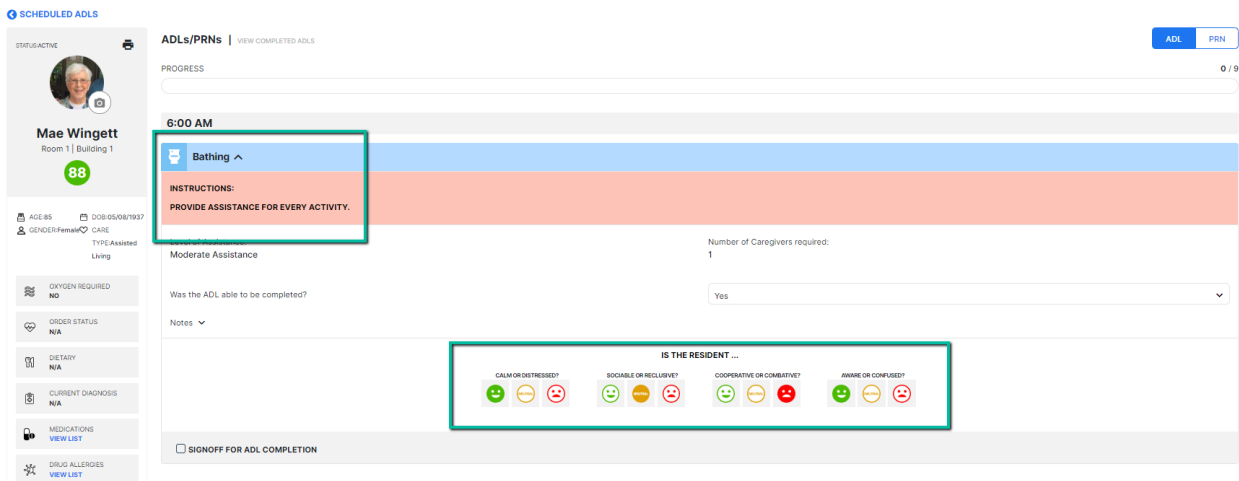

ADL Workflows

Tracking behaviors is an important part of resident care. We made these icons smaller to take up less room on the screen and added text to clarify the intent of each behavior set.

All 4 behaviors are required when an ADL is successfully completed. If an ADL cannot be completed due to resident absence, waiver, etc., then behaviors are not required.

An ADL completion option of “Wavier On File” was added to the picklist. Use this option to complete an ADL when a resident has an active waiver and a Temporary Warning outlining the wavier is also configured.

Any ADL instructions have been placed in a highlighted box so they stand out for care staff. If no instructions were added, the section is not highlighted.

Highlighted Instructions and New Behavior Icons

What's New?

Idle Logout

For security purposes, we added an “Idle Logout.” Users will be logged out due to inactivity after 30 minutes. Simply log back in to keep working in Fynn.
