

Product Update

Version 1.3.0 Release

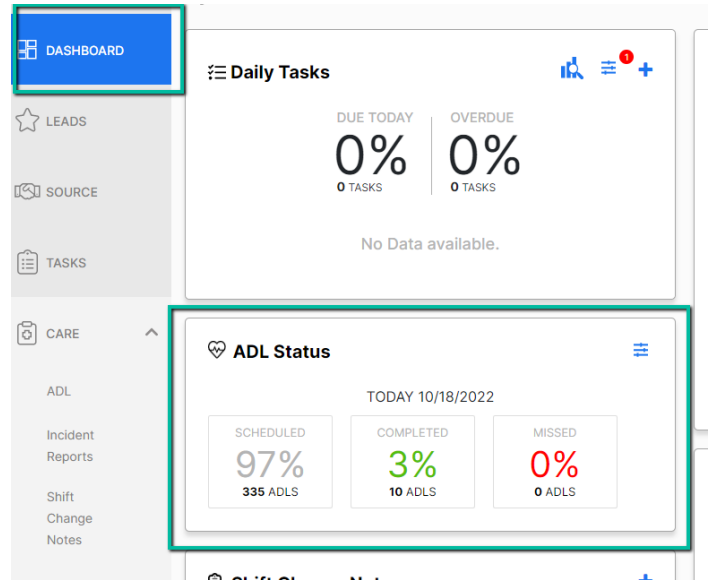

October 20, 2022

No tricks. Just treats. Check out Fynn's BOO-tiful new updates!

What's New?

Reporting and Dashboards

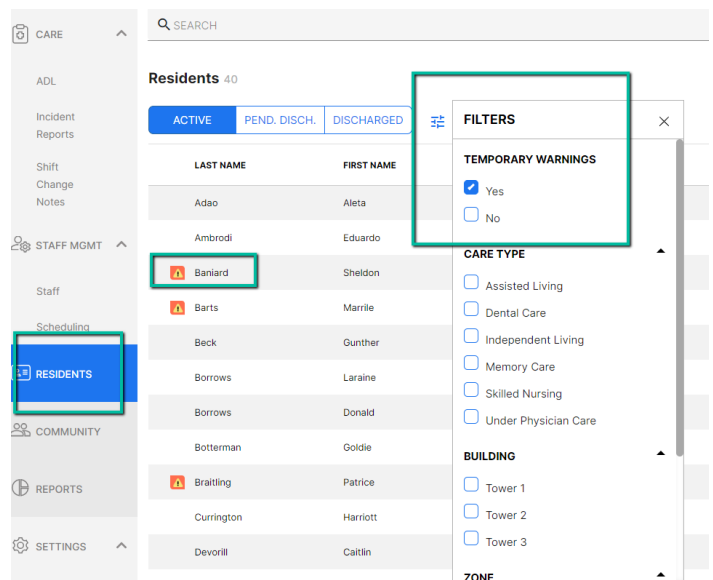

The ADL Reporting is now a Widget! Community managers will see the current day's ADL stats on their Dashboards. Use these to keep a pulse on what's happening in the community.

ADL Dashboard Widget

Temporary Warnings

The Temporary Warnings icon will now display on the resident search results. It has also been added to the Resident Filter options. We want you to have the most important information available at all times.

Printing

The wait is over. A daily ADL view is available to export and/or print!

To access, navigate to Reports > Care > ADL Reporting > ADL report page. If the page is filtered, the print detail will match those filters.

Product Update

Version 1.3.0 Release
October 20, 2022

What's Updated?

Marketing Workflows

The search capability in the Leads module will now allow you to search any record affiliated with the Lead including:

- Resident name
- Any contact
- A linked referral source

The Lead Notes will accept special characters now which is extremely beneficial when copying and pasting an email in its entirety.

Progress Notes

Saved Progress Notes are editable. Use the same steps you would use to edit Shift Change Notes and Incident Reports.
