

Product Update

Version 1.4.0 Release

November 30, 2022

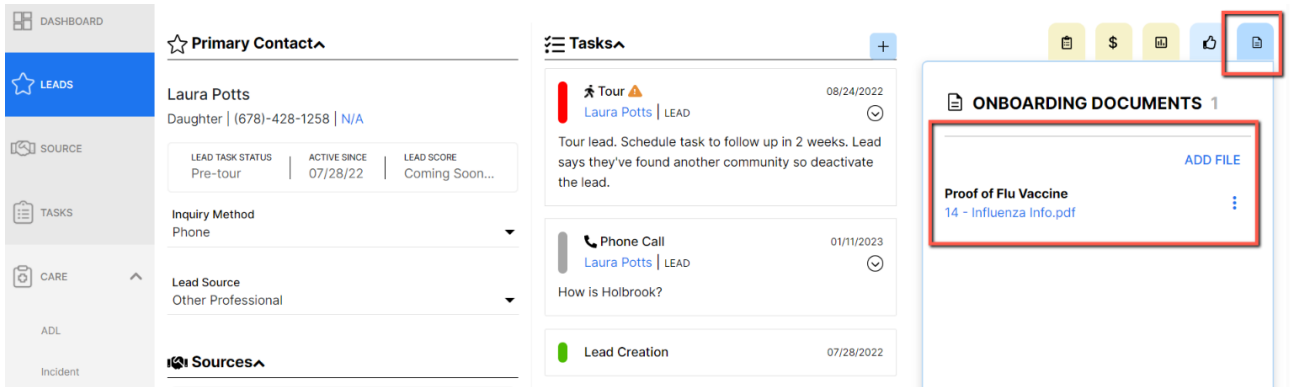

Without {feather} ado... Feast your eyes on Fynn's latest updates!

What's New?

Onboarding Documentation and Storage

You asked, we answered! Fynn can now accept and store onboarding documents on the Lead profile. Documents can be added, edited, or deleted. Documents can be downloaded once stored.

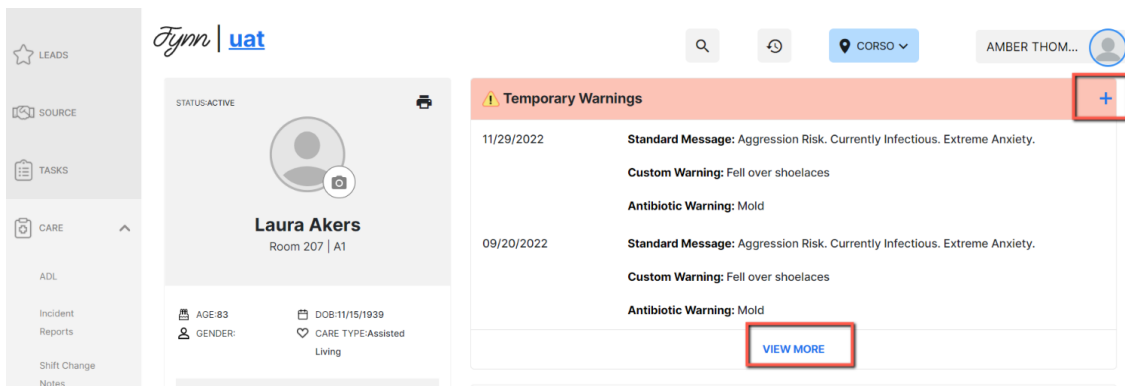

Onboarding Documentation Workflow: Navigate to the Lead > Onboarding documents > Add File > Add any document to Fynn

Onboarding Document Storage

Temporary Warnings

Creating and editing Temporary Warnings have moved! You no longer need to edit the Resident Profile. Simply add and edit Temporary Warnings from the main page of the Resident Profile. Clicking 'View More' will show a history of all Temporary Warnings per Resident. Any Temporary Warning added on the Resident Profile will show on the scheduled ADL page as it does today.

Product Update

Version 1.4.0 Release
November 30, 2022

What's Updated?

ADL

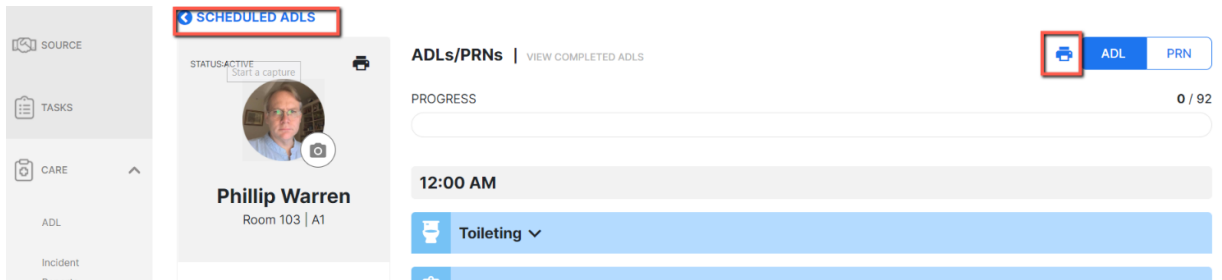

We've adjusted ADL performance to ensure pages are loading more quickly and accurately for each resident. If there is ever an issue completing an ADL, please reach out to support@fynn.io for immediate assistance.

Scheduled ADLs have also been updated to ensure a completed ADL is removed from the page.

The ADL reporting and ADL dashboard widgets have been updated to stay in sync as ADLs are scheduled and completed each day.

Printing Updates

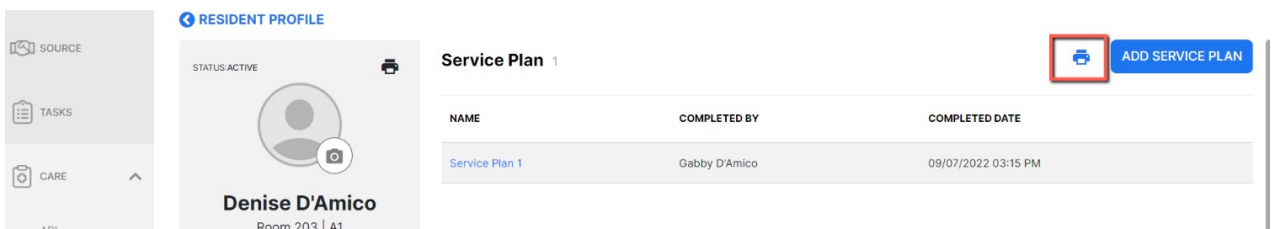

The Scheduled ADLs page allows you to print the resident ADL page for daily completion if needed.

Print Option for Current Day ADL

Resident Service Plans can be printed for records or provided to care partners.

Printing Service Plans Workflow: Resident Profile > Service Plan > View More > Print

Printing Resident Service Plans

What's Updated?

User Management

For enhanced security options, Reports access has been moved to a separate permissions category. As Fynn grows, more reporting options will be added to this module and access will be based on user permissions.

When creating a new user, the email activation link has been extended beyond 24 hours. Now you can add new employees on Friday and trust they can easily access Fynn over the weekend or even Monday morning!

Coming Soon

Be on the lookout for more exciting Fynn updates over the next few weeks!

The Marketing module is getting a makeover based on your feedback. This redesign is intended to support you and your workflow needs. Fynn will provide updated training to help you transition to the new look seamlessly.

Additional changes to the user management experience, resident profiles, and more updates based on your feedback are on the way!

Need Help?
